

OCR CAMBRIDGE TECHNICALS LEVEL 3

What are the Cambridge Technicals Level 3 Qualifications?

Cambridge Technicals are vocational qualifications that are designed to give you a work-focused alternative to A-levels. They've been designed to give you opportunities to demonstrate and develop the practical application of Music knowledge and understanding in the areas of Music performance styles that appeal to you.

This will enable you to develop your based research skills as you work, both independently and with colleagues, to progress through your Musical Theatre qualifications.

Assessment for the Musical Theatre qualifications are mainly task-based, meaning it is not heavily exam-focused. However, some units do include exams, which form part of the overall assessment.

They are nationally recognised and equate to the same amount of UCAS points to A-levels. This qualification offers a wide choice of Musical Theatre units from Singing Technique to Classical Theatre Performance to Dance Performance which reflect the range of opportunities available within the performing arts sector.

The course provides students with an understanding of performing arts through engagement with Musical Theatre techniques, the work of Musical Theatre practitioners, industry conventions and community projects.
