Cambridge Technicals are a vocational nationally recognised qualification that are designed to give you a work-focused alternative to A Levels. The assessment for the qualifications is task-based, so you will not need to take exams to achieve Cambridge Technicals qualifications. This qualification offers a wide choice of units to reflect the range of opportunities available within the performing arts sector. This course will provide you with an understanding of performing arts through engagement with techniques, the work of practitioners, industry conventions and community projects.

As further incentive, we are in direct connection with Chichester University with a guaranteed audition/interview for their course when auditioning from the HTS Performing Arts Academy. Additionally, you will receive 1-2-1 peri sessions and will be required to wear a HTSPAA kit. You will also have the opportunity to take part in LAMDA lessons which also offers you extra UCAS points.

More detailed information is available on the website at www.HTSPerformingArtsAcademy.co.uk and on the Performing Arts social media channels.
