

## **Spark Curiosity: Join Our Science STEM Club & Earn a CREST Award!**

Are you fascinated by how things work? Do you love experimenting, building, or solving real-world problems? Then the Science STEM Club is your perfect playground—and the CREST Awards are your chance to shine!

### **What Is the STEM Club?**

Our Science STEM Club is a fun, hands-on space where students explore science, technology, engineering, and maths beyond the classroom. Whether you're designing eco-friendly inventions, coding your own game, or investigating the mysteries of space, STEM Club is where imagination meets innovation.

- Weekly sessions with exciting experiments and challenges
- Collaborate with friends and make new ones
- Explore careers in science and engineering
- Build skills in teamwork, creativity, and problem-solving

No prior experience needed—just curiosity and enthusiasm!

### **What Are CREST Awards?**

CREST Awards, run by the British Science Association, are nationally recognised certificates that celebrate your achievements in STEM projects. They're perfect for your CV, UCAS applications, and future career prospects.

We offer different levels to suit all ages and abilities:

#### **Award Level Age Group Project Type**

Bronze	11–14	One-hour challenges
Silver	14–16	In-depth investigations
Gold	16+	Extended research projects

By joining STEM Club, you'll have the opportunity to complete a CREST Award project with support from teachers and mentors.

### **Why Join?**

- Boost your confidence and creativity
- Get recognised for your hard work
- Discover new passions and career paths
- Have loads of fun doing science your way!

## How to Get Involved

STEM Club meets **Thursday after school in Room 134**. Everyone is welcome—just bring your curiosity and a willingness to explore!

To sign up or learn more, **speak to Mr Wolfson**.

Let's make science exciting, inspiring, and yours to explore. See you there!
