Holy Trinity Project newsletter

October 2026

Welcome

Welcome to our newsletter which provides an update on the construction works being delivered at Holy Trinity School for the Department for Education (DfE) as part of their Further Education Improvement Programme.

In this newsletter, we will also provide updates of our social value activities focusing on community, education and local business engagement.

Dear Resident,

We are pleased to share our first project update and provide information on the progress made to date, as well as the works planned for October.

Progress to date

The initial enabling works have now been completed. These works have prepared the site for the next phase of construction and included the necessary early activities to support the safe and efficient delivery of the project.

We have also installed the wheel-wash facility at the site entrance. This will help to minimise mud and debris being carried onto the local road network by construction vehicles and forms part of our commitment to maintaining a clean and considerate site.

Forthcoming construction

During October, we are planning to undertake the following activities:

- Installation of the site welfare and office facilities which will provide essential amenities for the project team and workforce.

BOUYGUES UK

BUILDING FOR LIFE

- Commencement of the southern entrance works on Bewbush Drive.

The southern entrance works will be carefully planned and managed to maintain safety for residents, pedestrians and road users. Appropriate measures will be put in place to manage construction traffic and minimise disruption wherever possible.

Bouygues UK recognise the importance of keeping residents informed as the project progresses. We will continue to provide regular updates and will share further information about upcoming activities, including any works that may affect access, traffic or the surrounding area.

Thank you for your patience and cooperation while these important works are carried out. We are pleased with the progress achieved so far and look forward to continuing to deliver the project safely and successfully.

Groundbreaking Ceremony

In September, representatives of Holy Trinity C of E Secondary School, the Diocese of Chichester, the Department for Education and Bouygues UK celebrated the commencement of the schools transformational journey.

"This project will be completely transformational for the school and for the community. The community that sits behind us and around us is an area of deprivation. This is an opportunity to show them that they're worth investing in and worth providing with an environment in which they can learn.

I want to thank everyone who has been involved, including the DfE, Arcadis, Bouygues UK, who is now part of it all, and everyone else who has contributed. We're excited for the future and for our wonderful students to have the opportunity to learn in this new environment."

~Chrissie Millwood, Executive Head Teacher

Residents WhatsApp Group

We are always looking to enhance our communication with residents. If you would like to be added to our Holy Trinity Communications Group and receive immediate notifications regarding works on the project please contact our Resident Liaison Officer, Kathryn, on 07788922170. Please note that the group will only be used by Bouygues UK to send notifications when necessary and that residents will not be able to respond to or send messages in the group.

If you would like to speak to us regarding any aspect of our works, please contact Kathryn on the contact details overleaf.

Further information about the project and copies of our newsletters can be found on Holy Trinity School's website www.holytrinitycrawley.org.uk/new-building-project

BOUYGUES UK

BUILDING FOR LIFE

Your safety is our concern

Bouygues UK takes every precaution to keep you safe throughout the construction process.

Please do not enter the construction site, unless it is part of a pre-arranged visit by our project team.

Considerate Constructors Scheme

Our projects are registered and monitored by the Considerate Constructors Scheme. This ensures we always show full respect to the community, the environment and our workforce.

www.ccsheme.org.uk

Standard site working hours are:

Monday – Friday: 8am – 6pm **Saturday:** 8am – 1pm

There should be no noisy works before 8am

Want to speak to us?

We understand you will want to know what is happening in your area. Our team is available to answer any queries or concerns you may have and are only too pleased to hear from you. If you have any community projects that you think Bouygues UK could get involved with, please contact the site team below.
